

## Using the HD4444i on a 1080p TV via HDMI loop thru

To do this you need to set your IQ4 box to 1080p mode  
Press the FOXTEL button at the top of the remote.  
Arrow right until you get to SETTINGS  
Arrow down to ADVANCED SETTINGS and press OK

Select PICTURE SETTINGS and press OK

At the Set Top Box HDMI Output Setting Select 1080p  
Exit to save.

In this mode the IQ4 will not display a picture on the 4K  
channel 444.

For 4K picture on Chanel 444 you need to set the the  
Set Top Box HDMI Output to AUTO and connect the  
HDMI loop out of the HD4444i to a 4K TV.

When 4K is active on the IQ4, this picture will be  
available on the RF output in 1080p resolution.
